The Dual Diploma adds

A complementary American high school pathway, alongside the student's current education, when applicable.

- ✓ Critical thinking and text analysis
- ✓ Study habits and time management
- ✓ Exposure to a different education system

What exactly is the U.S. Dual Diploma?

A complementary academic pathway leading toward a U.S. High School Diploma issued by Chanak International Academy, alongside the student's current education, when applicable.

How it works

The student continues their current school without interruption. Chanak reviews the student's academic profile and defines a personalized route. The student completes Chanak's requirements — approximately 5 hours per week — with academic mentoring and progress tracked through the Student Information System (SIS). Upon successful completion of the program requirements, Chanak issues the diploma.

What this is NOT

- ✗ Not a basic English course
- ✗ Does not replace the student's current diploma
- ✗ Not the same as Chanak's Off-Campus program
- ✗ No automatic credit recognition without evaluation
- ✗ Not a guarantee of university admission
