# Does your children's education bring you peace or uncertainty?

Educating at home is an act of love, but doing it without structure wears the family down. Do you recognize any of these realities?

## **A legal and academic void**

Your child moves forward, but you have no grades, no transcript and no official way to prove it to the world.

## **Lack of personalization**

You have tried standardized curricula that force your child to move at the pace of the group, leaving gaps or holding back their potential.

## **The university wall**

You worry that, without an American High School diploma, their future and international opportunities will close.

## **Loneliness in the process**

You want to give them a serious academic path, but you feel overwhelmed by the lack of a real team to accompany and guide you.

# We are not a platform. We are a school.

Raising the standard of Off-Campus education.

## What we are NOT

- ✗ An app or content-delivery platform without a soul.
- ✗ An unschooling model with no structure or validation.
- ✗ An automated system that replaces parental authority.
- ✗ A simple purchase of teaching materials or a language course.

## What we ARE

- ✓ A registered American school with custody of the official record.
- ✓ A learning community grounded in faith, order and purpose.
- ✓ A centralized support system that diagnoses, supervises and guides.
- ✓ An institution issuing apostillable High School transcripts and diplomas.

*"When you enroll at Chanak, your child is officially registered in an American private school under our central supervision from Florida. The family retains local legal responsibility for education according to their country of residence."*

# Clarity for your family's peace of mind

## What if my child does not reach 80% mastery?

Error is information, not failure. The system issues Growth Alerts and Chanak Central activates an intervention protocol: the IEP pace is adjusted and support is offered to the family to secure full understanding before moving on to the next unit.

## Do parents need to be expert teachers?

No. Parents act as facilitators and supervisors of the environment. Chanak provides the structured curriculum, the Learning Units strategy, the expert diagnostic and the official certification.

## Can I combine Chanak with a traditional school?

Yes: for that case we have our Dual Diploma program. Your child attends their local school and simultaneously earns the American credits and diploma through our ecosystem.

## How is the diploma validated outside the U.S.?

Once enrolled, students belong to a registered private school (FLDOE). We issue report cards, transcripts and High School diplomas eligible for The Hague Apostille, valid for international homologation processes. As MSA-CESS candidates, we operate under strict quality standards.

# Build the legacy of their future today.

Academic excellence and biblical formation do not have to compete. Join the international community of families supported by the Chanak Growth System™.
